

International Occupational Hygiene Association

Additive Manufacturing (3D Printing)

EHS Considerations

Date/Time: November 30, 2022, 7:45 am-9:15 am New York Time

Fees: Complimentary to all members of IOHA Associations

80€ for industry sponsored and for-profit organization participants

Webinar Content

- Additive Manufacturing – Scale and Impact
- AM/3D Printing Types
- Framework for EHS Risk Management
- Metal 3D Printing: Hazards and Controls
- Polymer 3D Printing: Hazards and Controls
- EHS Standards Harmonization
- Free Resources

Webinar instructor with 18+ years of experience in EHS risk management of new technologies

Srinivas Durgam, CIH, CSP

Srinivas joined SC Johnson in 2020 and as the EHS Director he is accountable for the EHS and Sustainability performance of all manufacturing sites in the North America region.

Srinivas spent almost a decade with General Electric (GE) focused on EHS risk management of emerging technologies in progressive roles as the Global IH manager and the Senior H&S manager for GE's corporate R&D business followed by BU leadership role as the Global Director for EHS and Product Stewardship for GE Additive - a \$1.5B new business unit focused on commercializing metal 3D printing. In this role he led the development and execution of EHS risk management strategy for 3D printing at GE and thought leadership in collaborating with NIOSH, ORCHSE, and AMUG. He is most passionate about growing the industrial hygiene talent pipeline and sustainable technology adoption including additive manufacturing and nanomaterials.

Srinivas is a passionate volunteer. He has served on the Board of Directors for American Industrial Hygiene Association (AIHA) from 2019-2022 and the American Board of Industrial Hygiene (ABIH) from 2014-2018. Srinivas is the 2018 recipient of AIHA's Kusnetz Award for Leadership in IH profession, 2017 Promising Professional from the Society of Asian Scientist and Engineers, and 2016 winner of GE's National APAF Commercial Excellence Competition.
