

Associates & Partners

Occupational Hygiene / Industrial Hygiene / Health, Safety & Environmental Management **(Associate Consultants Home Based)**

The IOM is an internationally recognised centre for research, consultancy and service provision in the fields of occupational and environmental health and hygiene.

We are looking to expand our national and international occupational hygiene capacity with associate consultants and partners. Our associates and partners provide consultancy and service support to organisations in relation to occupational / industrial hygiene as follows:

Delivering consultancy excellence as well as providing professional and technical support internally and externally. Travelling nationally and internationally where required you may be required to deliver some, or all of the following services:

- Qualitative risk assessments
- Exposure Monitoring and Assessments (including COSHH & Risk Assessments)
- Workplace and Environmental Noise Assessments
- Local Exhaust Ventilation Testing
- Hand Arm Vibration Monitoring
- Respirator Face Fit Testing
- PPE assessments
- Indoor Air Quality Assessments
- Containment verification
- Preparing, writing and reviewing technical reports, in some cases based on client standards or guidelines
- Assisting with Training Courses for clients
- Scheduling work and ensuring on-time service delivery

Your Skills

We are looking for different levels of experience, including:

- Early career: ideally with a Bachelor's degree and 3 or less years of hygiene experience with monitoring and exposure assessment
- Mid-level: Bachelor or Master's degree and the equivalent of a certified hygienist level from BOHS with 5-10 years of experience.
- Expert level: Bachelor or Master's degree and the equivalent of a certified or chartered hygienist level from BOHS with more than 10 years of experience.

For all levels we would be looking for the following skills and experience:

- Professional expertise and a comprehensive understanding and knowledge of legislation and guidance in your particular field and location.
- Proven practical experience within more than one industry would be advantageous

- Full driving licence is essential as the role may involve travel
- Capable of managing own workload to defined timescales as well as working collaboratively with others on a remote basis

Associate partners should have strong planning, oral communication and report writing skills coupled with a commitment to maintain the highest quality standards and to deliver excellent customer service.

If you are currently self-employed or are an organisation that would like to be associated with IOM we would be interested in talking to you. Competitive day rates are available to partners who wish to work directly with IOM in the provision of services to clients.

If you wish to find out more, please send your current CV, or portfolio, to recruitment@iom-world.org.

About the IOM

The IOM is an internationally recognised centre for research, consultancy and service provision in the fields of occupational and environmental health and hygiene.

The IOM was founded as a research charity in 1969 and has been at the forefront of scientific research to understand and mitigate a range of occupational and environmental health risks. These include coal dust, asbestos, carbon nanotubes and air pollution.

We seek to bring about an improved understanding of the factors affecting human health and to identify, promote and apply practices which will lead to improvements in the health of workers and the wider population.

Our people share our purpose and vision for the future; to deliver a healthy and sustainable world in which we all live and work through our exceptional services, communications and science.
